

SHANE NOEL L. PELAYO

San Luis II, Dasmarinas City, Cavite | shanenoelpelayo.basc@gmail.com | 0991-759-2670

SUMMARY

A fresh Cum Laude BSIT graduate with experience in full-stack web and mobile application development, leveraging AI-assisted development tools to accelerate software delivery. Skilled in modern development technologies and eager to contribute as a Software Engineer with a focus on AI-powered solutions.

PROJECTS

Web-Based ERP | Gencys Digital Tradings and Inc. Feb 2026 - May 2026

Internship Project | Software Developer

- Assisted in developing a web-based ERP and inventory management system using PHP Laravel and Vue.js, utilizing OpenAI Codex as an AI coding assistant to improve development efficiency.
- Developed and maintained RESTful API endpoints and backend functionalities in Laravel for inventory, sales, and purchase order modules.
- Built and updated frontend components using Vue.js and ensured proper integration with backend functionality.
- Collaborated with the development team using GitHub for version control and Jira for task tracking and project coordination.

Mobile-Based Quail Automated Broiler Feeding System Feb 2025 - Dec 2025

Capstone Project | Full Stack Developer

- Led a capstone team in developing a mobile-based automated quail feeding system using the Agile SDLC, leveraging Cursor Pro to accelerate development.
- Developed the Android application in Kotlin with Firebase integration using AI-assisted development.
- Programmed the ESP32 for automated feeding control and mobile communication.
- Implemented automation, notifications, system testing, and project documentation.

Library Management System Mar 2025 - Jun 2025

Personal Project | Developer

- Developed a web-based Library Management System using PHP, MySQL, Bootstrap, and XAMPP (Apache).
- Built and maintained CRUD functionalities, borrowing records, and database-driven features.
- Designed and managed the MySQL database and performed system testing and debugging in a local development environment.

SKILLS

- AI-Enhanced Software Development: OpenAI Codex, GitHub Copilot, Cursor, AI-assisted code generation, debugging, code review, and documentation
- Web Development: HTML, CSS (Bootstrap), JavaScript, PHP (Laravel), Vue.js, Python, MySQL
- Programming: Java (OOP), VB.NET, C++ (Fundamentals)
- Version Control & Collaboration: Git, GitHub
- Currently Learning: n8n workflow automation, AI-powered workflow automation, AI integration.

EDUCATION

Bachelor of Science in Information Technology

Bulacan Agricultural State College

Aug 2022 - July 2026

Cum Laude

ADDITIONAL INFORMATION

- Awards/Activities:** With High Honors, Consistent President's Lister, RAITE Quizbee Representative, IT Quizbee Championship at BASC, BITS: Hackathon Champion at BASC, TOPCIT Level 2 Passer, Cum Laude.
